

## Knowing the score.

When you tell someone what you do for a living, you always get a kife out of what they say. "You get paid for that?" What they don't know is that making it look so easy is what makes it hard. But you love covering sports so much, you'd never call it work.

You're tasting success and it sure tastes good.

VANTAGE. VANTAGE. THE TASTE OF SUCCESS.

## **AFTER 500 PLAYS OUR HIGH FIDELITY** TAPE STILL DELIVERS HIGH FIDELITY

If your old favorites don't sound as good as they used to, the problem could be your recording tape.

Some tapes show their age more than others. And when a tape ages prematurely, the music on it does too.

What can happen is, the oxide particles that are bound onto tape loosen and fall off, taking some of your music with them. At Maxell, we've developed a binding process that helps to prevent this. When oxide particles are bound onto our tape, they stay put. And

so does your music.

So even after a Maxell recording is 500 plays old, you'll swear it's not a play over five.
